MAZOLA

MISS ANNIE LOUISE PHILLIPS

MAZOLA—Best for all cooking purposes.

MAZOLA—Best for shortening, saves time—is easily mixed—makes flaky pastry, delicious cake and biscuits.

MAZOLA—Best for frying, because it can be heated to higher temperature than any other fat without smoking (650 degrees Fahrenheit). It doesn't absorb flavor of foods cooked in it, hence can be used over and over again.

MAZOLA for salads cannot be equalled—gives the salads a delicate flavor that cannot be found in any other oil.

White Crest Flour

MISS INA WIGHTMAN

Made of the pure, soft, sun-ripened wheat of Kansas, has been on the market for 29 years, making friends and customers every day. Our accurate scientific process of manufacture provides a chemical test every day and a quality test hourly in our laboratories. This assures uniformity of quality from month to month and from year to year. WHITE CREST FLOUR withstands fluctuating climatic conditions better than any flour on the market. Come in and see the lovely Bread, Rolls, Biscuits, Pies, etc., it produces.
